

**ASSOCIATE CONSULTANT
APPLICATION DEADLINE: AUGUST 27**

Make an impact from day one

As an Associate Consultant at Bain, you'll make an impact from day one. Working alongside some of the brightest minds in the industry, you'll help intriguing companies solve some of their biggest challenges.

NO TWO DAYS ARE THE SAME

You'll be part of a company where we invest deeply in our people and where you'll get to build a global network of peers and experts that will help you thrive and develop through case work, trainings, externships and experience transfers. You'll begin as a generalist and be in the thick of the action. Every day brings something new, and your tasks will cover everything from providing clients with powerful facts and analyses to gathering and interpreting data, interviewing the client's customers, competitors, suppliers and employers, and much more.

WHAT DO YOU BRING TO THE TABLE?

If you're a curious and ambitious graduate looking for a steep learning curve, we'd love to hear from you. To be eligible for the position, we'd like you to have:

- strong academic records
- a creative and analytical mindset
- a solid team player attitude with excellent people and communication skills
- a high level of drive

Are you ready to start a new journey and join us in 2024? Go ahead and send us your application no later than August 27 by scanning the QR code. You'll be based in Oslo but get to work on cases across the Nordics, so no local language skills required, only full proficiency in English.
